

NNJ3

200 Webro Road, Parsippany, New Jersey

NNJ3 is a 120K SQFT purpose-built, single tenant facility located at 200 Webro Road, in Parsippany, that provides scalable, next generation data center solutions. This state-of-the-art facility features high density colocation capabilities, redundant power and cooling, comprehensive security features, flexible network infrastructure and managed services. With flexible power configurations, superior support services and unmatched scalability, this facility helps customers safeguard critical data while utilizing enterprise level IT solutions. This facility also offers disaster recovery suites.

Network-Neutral Connectivity

NNJ3 provides connectivity via a carrier-neutral facility with dual cable entrances. This facility is connected to all the major carrier hotels in New York City and New Jersey, including 60 Hudson St., NYC and 165 Halsey St., Newark, through dark fiber via Cologix's Metro Connect.

Why Cologix New Jersey?

Cologix's four New Jersey data centers provide enterprise-grade space, power, connectivity and

managed services to customers worldwide, with round-the-clock technical support. About 30 miles outside of Manhattan and 280+ feet above sea level, our four New Jersey data centers provide proximity to New York City for connectivity to key carrier hotels and geographic diversity. Situated above the Federal Emergency Management Agency (FEMA) 500-year flood plain, the Cologix New Jersey facilities remained safe, dry and accessible during all recent hurricanes and nor'easters, including Superstorm Sandy.

Site Specifications **NNJ3: 200 Webro Road, Parsippany, New Jersey**

Site Information

- Site Capacity — 4.5 MW
- Site Type — Cologix owned
- DC Space — 120K SQFT
- Building — Renovated 2013–2014; 2-story, concrete and steel framed; seismic zone 0
- Campus — 200K+ SQFT
- Data Halls — Full cabinet and cages with slab floors
- Rack Size Up To — 48 RU
- Space Configuration — Cabinets and custom cage configuration

Security

- Cameras — Closed-circuit television (CCTV) system in the building and suites
- Access — Biometric and badge/mantraps
- Security Personnel — 24/7/365

Environmental Controls

- Cooling — Low-velocity, high-CFM ambient air
- Fire Suppression — Pre-action systems, multi-stage, zoned and localized dry pipe
- Fuel storage — 16.4K gallons

Power

- Generator + UPS — Diverse UPS and distribution panels (N or 2N)
- Load Design — 150 watts per SQFT (3 kW–5 kW)
- Power Usage Effectiveness (PUE) — 1.49

Connectivity

- Meet-Me-Room (MMR) — 3, Cologix controlled
- Networks — 75+ unique network providers
- Fiber Entrance — Diverse building fiber entrance and riser facilities
- Point of Entry (POE) — 3
